REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board of Pembroke:

My second annual report deals chiefly with teacher changes, professional progress, improved and added facilities, special activities, expenditure per pupil, and increasing the percent of promotions.

Schools opened in September with two changes in the staff of regular teachers. Miss Lois M. Cate of Hooksett succeeded Miss Anna Kandilis of North Pembroke. Late in the summer Miss S. Ellen Mitchell of Candia was elected teacher of the Buck Street School, succeeding Miss Elizabeth A. Robinson.

Both Miss Kandilis and Miss Robinson were released to accept teaching positions that offered more attractive salaries.

Miss Mary Pickwick of Manchester, a graduate of New Hampshire University, is giving part-time instruction in sewing and cooking to the girls of the upper-grades.

A definite schedule of teachers' salaries, adopted and made effective last spring, encourages professional improvement through summer school attendance and the completion of professional courses. Three teachers took advantage of the accelerated schedule: Miss Bernice Stinson of the Borough School attending the summer session at Keene, while Miss Hazel Foss and Miss Gertrude Gile took summer courses at the Farmington Normal School in Maine.

Facilities in language instruction have been improved by the introduction of the "Open Door Language Series" in grades three to six inclusive, and the extension of "Elements of English" by Center and Holmes into both

the seventh and eighth grades. New material in literature is now available in both of these grades.

The first half of a two-year course in general science was opened this fall to the pupils of the two upper grades. This instruction anticipates preparation for the third-year junior high school course in science which is given to the entering class at the Academy. Science and nature readers are now in use in the four intermediate grades.

Special projects in manual training include a dozen window screens for the Grammar School building and several folding beds for the nursery school.

One second-hand sewing machine has been purchased for the domestic arts class. An additional machine is still needed in this department.

Simple lavatory equipment has been placed in the Pembroke Hill, Borough, and North Pembroke Schools. Both the schoolroom seating equipment and the toilet facilities in these schools are obsolete in type and arrangement. I would suggest that, beginning with the school having the largest enrollment, these conditions be brought up to standard in one school each year.

With the exception of the outhouse toilets at the Buck Street School, facilities in the remaining school buildings meet satisfactory standards.

Special activities for the extension of educational opportunities to those above and below the common school age have been most heartily supported by your community. Chief among these activities is your Nursery School, opened last July, and recently organized classes for the instruction of adults in English and sewing.

Through the generous cooperation of Mr. Ernest Bromley, Agent of the Suncook Mills, with the leading business and professional men and women of your community, an exceptionally well adapted suite of rooms, fuel,

furniture and other equipment have been provided for the care and instruction of thirty under-privileged children who are between two and five years of age. The entire cost of instruction, nursing care and food is paid by the federal government through the Works Progress Administration.

Since the middle of January over sixty men and women are attending regular classes in English. These classes are conducted by Mr. Lucien Brunelle of North Haverhill, New Hampshire.

Fifty or more women have recently formed five classes in sewing under the instruction of Miss Isabelle Barnett of Whitefield, New Hampshire.

Both Mr. Brunelle and Miss Barnett are graduates of the University of New Hampshire. The cost of instruction for adult classes is also paid by the federal government through the Works Progress Administration.

With improved facilities and opportunities Pembroke's cost per pupil for the year ending in June 1935, was \$66.74 against the state's median cost of \$76.93: which means that Pembroke's increase in per pupil cost was \$.62 against the State's median increase of \$4.47 per pupil in elementary schools.

Last June the per cents of promotion in several schools were too low; in certain other schools these per cents were possibly too high. To improve this situation four lines of procedure are being followed: 1. Trial promotions are being extended for at least half a year, 2. A complete record of achievement tests is kept and studied for every pupil in the four higher grades, 3. The majority of the teachers are making annually at least one visit to every home represented by the pupils in their room, 4. Before a pupil is returned to a lower grade the case is reported to the superintendent and investigated by him.

In conclusion allow me to call attention to the report of your School Nurse. A particularly interesting record is the high percentage of dental defects corrected. Of 107 dental defects found, 102 were rectified.

I greatly appreciate the willingness with which the teachers and janitor have contributed time and effort made necessary by the testing program, home visits, activities in music and athletics, and provision for adult classes.

The cooperation extended by the School Board and other citizens has been an inspiration to your Superintendent.

Respectfully,

GEORGE H. HARMON,

Superintendent of Schools.
